Top 50 North American Collectors of 2006

All embody the spirit of educated and informed collecting

Every industry has a list of “players”—influential people, opinion leaders, and fixtures at major events. At SCM, there has always been a certain propensity for lists—“Ten Bargain Exotics”, “18 Best Vintage Events”, “11 Ferraris You Should Avoid,” etc. A list of people rather than cars, however, is something new not just for us but in the collector car world in general.

The SCM list of the Top 50 Collectors of 2006 is not based solely on size or value of collections but on passion for and contribution to the car collecting hobby. Some individuals listed have raised the profile of the hobby, supported and participated in concours and shows, or made it a better, safer, or more fulfilling pursuit for the rest of us. Some you may recognize and some you may not. All we think embody the spirit of educated and informed collecting that SCM endeavors to support every month.
